Notes

¹ Throughout this chart, “# of Rooms” means the number of overnight guest rooms available within the facility.

² Throughout this chart, all \$ amounts are U.S. Dollars.

³ Throughout this chart, “Square Feet” refers to the net square footage (*not* square metres) of meeting rooms available within the conference facility. In order to equate the square feet with square meters, divide the number of square feet by 10.764. Do not include pre-function space, common areas or hallways.
