Q Center is an ANDERSEN® business.

Meetings • Conferences • Executive Learning

## The Q Center difference

Q Center has the only fully integrated team building experience offered entirely onsite. Our seamless integration of the many activity options, the technology, catering and décor as well as our professional staff enable us to ensure the success of your event. And since we provide the entire offering onsite – with everything you could ever need for a successful team building event – we make it easy and affordable for you to design the right event for your team.

Better team building results in better meetings. At Q Center, you meet your goals and, ultimately, build a stronger team.

## Team building options

Whether you're looking for interactive learning-based activities, events benefiting a charitable organization, or just an opportunity for the team to have fun together and network, we have what it takes to help you accomplish your goals.

Q Center offers a full range of team building options – from our culinary competition to game show events to our moviemaking challenge. Participants take part in scavenger hunts, problem solving activities, construct-a-bike and a variety of sports. These and countless other options are facilitated by our professional staff onsite at Q Center.

## Better teams, better focus

Today, the speed of business is faster than ever. You need to design your meeting to accomplish more in less time. This can result in long grueling days and mountains of information. It becomes almost impossible for attendees to take it all in.

Team building offers a chance to re-focus, to learn in a more interactive way. This not only makes meetings more memorable; it also makes them more fun and, ultimately, more effective.

## Building the event

At Q Center, team building events are scalable to any group size or budget and individually tailored to meet your goals.

We design fully customized, catered events made up of several interactive activities. Working with you, we build the event from the ground up – incorporating your corporate brand and values and supporting the theme and message of your meeting.

We use music, design and décor to build the right atmosphere for the event and we provide cutting edge technology and professional facilitators to drive the event and ensure it is a success.

If a single learning-based activity is what you're looking for, choose from dozens of options designed to teach leadership, teamwork and organizational skills. Our professional facilitators provide support and conduct follow-up discussions focused on lessons learned from the activity.

## Sometimes you just want to have fun.

Activities such as softball, soccer, tennis, cross country skiing and biking give your team the chance to play together, network and build camaraderie. Our 95-acre property accommodates all the sporting options you're seeking for fun in the sun with your team.

Attendees can also enjoy kicking back for a wine tasting, a video game contest on our Wii consoles or a 70's dance party.
